

Table Of Contents

Author Biographies	<i>VII</i>
Introduction	<i>VIII</i>
Using This Book	<i>IX</i>
Section I - Dialogue Abstracts - Finding What You Need	<i>1</i>
Section II - Using Dialogues in the Classroom	<i>11</i>
What are Dialogues?	<i>11</i>
Using Dialogues in the Classroom - What For ?	<i>13</i>
How to Implement Dialogues in Your Classroom	<i>25</i>
■ Read & Act Out in Class	<i>25</i>
■ Assign Reading as Homework	<i>27</i>
■ Assisting Language Learners or Poor Readers - Reading & Listening Along With mp3's	<i>27</i>
■ Assessing Learning - Having Students Write Dialogues	<i>28</i>
Teacher Tips for Using Dialogues	<i>30</i>
The Benefits of Using Dialogues in Your Classroom	<i>31</i>
Guidelines and Suggestions for Writing Your Own Dialogues	<i>32</i>
Section III - The Dialogues	
1. Thinking Like A Geologist	
1.1 What Geologists Study	<i>36</i>
1.2 A Track Record in Reverse.	<i>38</i>
1.3 A Scientific Upheaval	<i>40</i>
1.4 I See the Same But I Don't Think the Same	<i>42</i>
1.5 In Order Please	<i>44</i>
1.6 Round and Round the Carbon Goes, and Where it Stops May Determine Our Future	<i>46</i>
1.7 Studying the Rocks	<i>49</i>
2. Rocks and Minerals	
2.1 Minerals and Cleavage	<i>51</i>
2.2 Relative Hardness: How Soft is Soft?	<i>53</i>
2.3 A Symbol of Our Love	<i>55</i>
2.4 Rocky's Rocks and Minerals	<i>58</i>
2.5 Colorful Crystals Big and Small	<i>60</i>
2.6 Rock On!	<i>62</i>
2.7 The Ultimate Question...Where Did I Come From?.	<i>64</i>
2.8 Holding it Up: Bridge Foundations	<i>67</i>
2.9 Hot Bodies: How Minerals Differentiate in Cooling Magma	<i>69</i>

3. Fossils	
3.1 Finding Fossils: What Can We Learn from “Reading the Rocks?” . . .	71
3.2 Fossil Formation	73
3.3 Fossil Hunting	75
3.4 Fossils and Dragons	77
4. Earthquakes and Volcanoes	
4.1 Hawaiian Vacation Part I: Piles of Pahoehoe	80
4.2 Hawaiian Vacation Part II: Aaaaaaaaaaaaa	82
4.3 Amber and Opal Learn About Pahoehoe, Aa, and PillowLava	84
5. Plate Tectonics	
5.1 “Marginal” Evidence for Plate Tectonics	88
5.2 Plate Tectonic Evidence: Magnets in the Rocks	91
5.3 Plate Tectonics: The Mechanism	93
5.4 Plate Tectonics and the Notion of a Scientific Theory	96
5.5 Rumble, Rattle and Wriggle with the Rocks	99
6. Water and the Atmosphere	
6.1 Water Ya Know?: A Play in One Act	101
6.2 The Pressure is On! Is the Bottle Better?	104
6.3 Cold Fronts	107
6.4 Groundwater, Cows, Bacteria, and Horror Movies	109
6.5 Follow the Carbon	112
6.6 Heat Storage	114
6.7 In and Out	116
6.8 Keeping it Even	118
6.9 Wherever the Wind Blows	120
7. Oceanography	
7.1 A Salty Solution	122
7.2 Finding the Bottom	124
7.3 The Shape of the Floor	126
7.4 What is Under the Ocean Water?	128
7.5 Waterworld Could Have Been a Reality	131
7.6 Ride the Surface Current	133
7.7 Ride the Waves	135
7.8 Salty Versus Fresh	136
7.9 Ocean Temperatures	138
7.10 Only One Ocean	140

8. Surface Processes	
8.1 Evidence for Glaciers: A Mile of Ice Makes Gardening Difficult	141
8.2 Forever and Ever...or at Least Until the End of Summer	144
8.3 I am Freezing: Formation of a Glacier	146
8.4 The Rocky Story of Soil Formation	148
8.5 You Win Some You Lose Some, or a Game of Sediment Hide and Seek	151
9. Space Science	
9.1 Gas Giant	154
9.2 Love, Stars, and the Power of Metaphors	156
9.3 Silly Ideas, Bad Explanations and Other Things I Knew to be True	158
10. Maps	
10.1 From Here to There the Easy Way	161
11. Student Example Dialogues	
11.1 Classifying Rocks	164
11.2 The Rock Cycle's Affect on a Young Rock's Life	166
Section IV - Science Dialogues & Teacher Decision-Making	167
